OMNI-CHANNEL COMMUNICATIONS

Create and Deliver Custom ID Cards

ONECARD™

CUSTOMIZE ID CARDS

Create, order, produce and track ID Cards

Our ONEcard solution enables you to create and deliver highly customized ID Cards for your target audience, and control your ID Card production process from card design, card proofing, ordering and tracking. Stakeholders can create ID Card templates, edit and proof each ID Card, hold, suppress, redirect entire files, or groups of ID Cards, all within the framework of our sophisticated approval workflow. ONEcard will also archive all ID Cards for 10 years, and allow you to retrieve any participant's ID Card, 24 hours a day, 7-days a week. eDelivery of ID Cards via a smart phone app or delivered to a client website is core to ONEcard.

O'Neil is here to help

O'Neil will manage your entire ID Card workflow, from creation, approval, and eDelivery and physical creation and delivery. We produce millions of full-color, Teslin and plastic ID Cards, with a variety of carriers.

Request a demo

Please give us a call for a demo of our ONEcard online ordering system and to find out why some of the largest healthcare and other major organizations trust O'Neil with their ID Card production.
