

ONEcard - Online ID Card Ordering, Proofing & Production System

Create and deliver highly customized ID Cards with O'Neil's **ONEcard** solution.

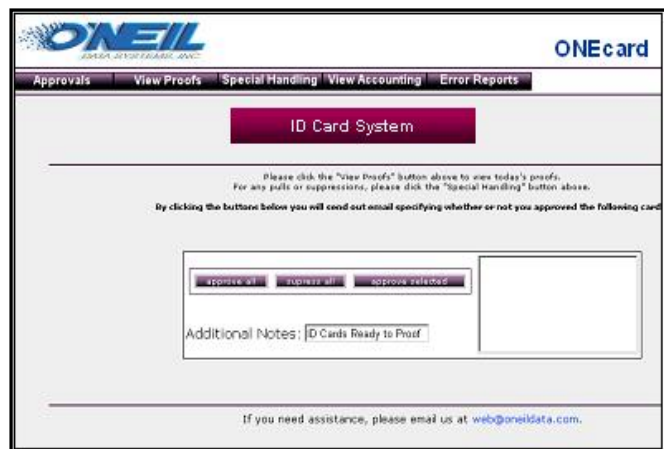

ONEcard is an end-to-end solution that will allow you to control your ID Card production process from start to finish. Our browser-based ordering system enables you to build your ID Cards on-line, load data files, edit and proof each card, archive and control the ordering process, including real-time tracking of each order.

Without any additional steps, our ONEcard ordering system will automatically submit your order into print production for digital print-on-demand or electronic delivery via the internet.

ONEIL is a proven partner in managing your entire ID Card program. We produce and manage millions of ID Cards annually - in a variety of formats, including full color - for some of the largest firms in the U.S.

ONEcard Highlights:

- Browser-based ordering system
- On-line editing and proofing
- Real-time auditing and reporting
- Electronic, paper and plastic ID Card options
- High quality color digital printing
- On-line order tracking
- Complete fulfillment operation
- Postal optimization
