

ONEview Digital Workplace

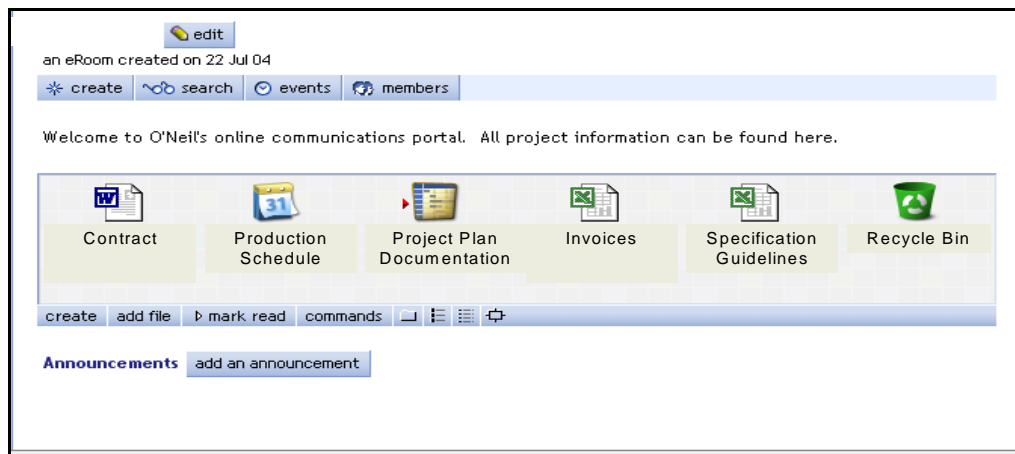

O'Neil's collaborative web portal, called **ONEview**, is a value-added service that enables our clients to effectively manage all aspects of projects throughout every phase of production.

Simply put, ONEview is a digital workplace that enhances communications and improves productivity. ONEview is the ONE place for clients to communicate and access information on all projects. By logging into your secure, personalized web site, hosted by O'Neil, you will have a dedicated "virtual place" where you can collaborate with team members and decision makers.

You can submit specifications for new jobs, request pricing, access proposals and contracts, review schedules, send and receive messages, check job status, job tracking, check inventory, load files, review proofs, access archived orders, plus much more.

ONEview Highlights:

- Value-Added Customer Service
- Browser-based communication tool
- Digital workplace
- Secure login
- Dedicated e-room for information access
- On-line project planning
- Improve productivity
- 24-7 accessibility
- On-line order tracking
- Send and receive messages
- Archive all projects
